

# Inspiring the cyber security community

## GRC INFORMATION SECURITY CONSULTANT

THE BEST WAY TO A GREAT CAREER IN CYBERSECURITY

**Do you want to boost your skills and join the Belgian leader in cybersecurity?**

**We are looking for new talents!**

Do you recognise yourself below? **Don't wait and apply!** We will get back to you within seven working days.

### About us

Founded in 2001, Approach is **the Belgian leader in Cybersecurity**, held by a world-renowned shareholder, building **trust** for businesses in the digital world. Leveraging a large pool of certified professionals in GRC, Cybersecurity and development, we strengthen businesses' cybersecurity and resilience posture by adopting a risk-based and layered security strategy.

Our customer base's diversity offers **our consultants a unique opportunity** to work on **multiple innovative and challenging projects with cutting-edge technologies and tools** according to **their background and interests**.

Our **fast sustainable growth**, our **leading position** and **international ambition** also offer **great internal career opportunities** driven by our practice leaders and career counsellors.

Join Approach and you will become **a member of our Cybersecurity competence centre**. At Approach, we don't view certifications as a marketing artefact. We are **always investing in our talents**, offering training and coaching them to develop their skills. Our people are all **certified professionals who aim to build their knowledge continuously**.

By joining Approach, you will also have the **advantages** of working in a **human-scale company where each individual makes the difference in a healthy and pleasant atmosphere**. Our team counts 80

people and promotes **excellence**, close **collaboration** through regular team meetings, direct communication and feedback, dynamism, and fast decision-making.

Our offices are located in **Louvain-la-Neuve** and the city centre of **Antwerp**, offering you a job next door with either a wide range of amenities (restaurants, fitness centre, childcare nursery...) in a traffic jam free zone or a great view of the Scheldt river.

## Your Role

We are looking for a **GRC Information Security Consultant** to join our GRC department. You will take part in stimulating consulting and project assignments under the supervision of our Lead consultants and Practice Leader.

### ***Your missions will consist of:***

- Be an integral part of our Governance, Risk and Compliance solutions
- Representing APPROACH and delivering high standard quality deliverables
- Bring high-value solutions to customers in the area of GRC (Business Continuity and Information Security and Risk Mgt, Data Privacy)
- Delivering GRC solutions in various steps of the engagement's lifecycles (perform security and risk assessment, contribute or manage security project, deliver GRC solution as a service).
- Provide CISO or assistant-CISO services to our customers (i.e. provide strategic and technical advise, organizing the information security related activities, supporting customers to manage security incident(s),
- Provide Data Protection Management and/or DPO service to our customers (i.e. conduct awareness session, DPIA's, compliance assessment, support in Data Subject Access Request or Data Breach)
- Actively participate in the development of a GRC solution offering including improving GRC assets and writing of resources
- Sharing knowledge and actively contributing to GRC team meetings
- Bringing a positive and "can-do" attitude and energy to the team

### ***By joining this project, you will have the opportunity to:***

- Develop your consulting role regarding analytical capacity, ability to see the overall picture,

and both written and oral expression.

- Be recognized by the community as being an expert in your area.
- Demonstrate your capability to work in a team and portray a positive attitude.
- Capitalize on the experience acquired within the Practice.
- Utilize or learn the tools or methodologies of the Practice and actively contribute to developing these tools and methodologies.

## Your profile

### You have:

- More than 3 Years of professional (on the field) experience, including demonstrable experience in Information/IT Security
- University Degree Qualified or equivalent work experience
- Uncompromised integrity: respect for the confidentiality of both client and company information
- Strong understanding of ISO27000 standards, Data Protection, and Risk management
- Strong understanding of regulatory frameworks such as GDPR, NIS, eIDAS, ..
- Ability to define the global information security strategy, the scope and context
- Good understanding of Information Risk Management, including Third party risk management
- Ability to write policies, processes, guidelines, and procedures
- Good understanding of IT and Cloud services
- Contributed to the implementation or operation of ISMS
- Exposure or management of security audit, security incident, and crisis management
- Establish and coordinate business continuity management
- Perform training and awareness activities
- Manage small to medium size projects preferably in ICT and information security
- Exposure toward middle to senior management
- Excellent communication and presentation (oral and written)

### Considered as a plus:

- ISO27001 Lead Implementer or lead auditor
- ISO27005, EBIOS
- CISSP

- CISM, CRISC, CISA
- COBIT, ITIL
- CCSK
